

SSO 2023 CGSO Board Exam Virtual Review Course January 28, 2023

Session Description:

This interactive online review session will provide updated information pertinent to complex general surgical oncology in preparation for the American Board of Surgery's CGSO certifying examination, including core knowledge presentations, oral board examination advice, and practical advice with feedback. Participants will also review updated NCCN algorithms and new/sentinel trials in surgical oncology. The intended audience for this course is surgical oncology fellows and junior faculty. This course can also serve as a refresher for any interested surgical oncologist currently in practice. The course will take place online on Saturday, January 28, 2023, and all participants will have access to session recordings post-event for a limited time.

Schedule: Lectures will be recorded. Handouts will be provided to attendees in advance.
